

Dear students!

This folder – 135-138 (general medicine) – will have a new tasks each week. You must do this task.

Today we have the 1st Chemistry lesson. What do you need?

1. Study the presentation “Titrimetric analysis — копия”, the Periodic Table and the video “How to calculate molar mass”.
2. Do the two tasks in the end of presentation “Titrimetric analysis — копия” and send me your answer to my e-mail (darya.taldykina@yandex.ru)

*Best wishes for you, your course instructor is **Darya Rudenko** (prof. of the Department of Biochemistry of “Professor V.F. Voino-Yasenetsky Krasnoyarsk State Medical University”)*
